Dear Sirs,

FRN: 1092080
471 Application Number: 399248
Name of Applicant: Mill Creek Valley USD 329
Billed Entity: 137623
SPIN: 143004463 Twotrees Technologies

On September 16 2004 Mill Creek Valley Schools requested a Split FRN by
way of the attachment A (attach original letter). Apparently the attached
Split FRN was misunderstood as a SPIN change plus the amount of request
for the original SPIN was incorrect. The original requested amount was
2308.00 per month and it should have been 1908.33 per month.

We then received attachment B (the fax that you sent to me on Oct. 11) from
the SLD stating to resubmit for a SPIN Change. So we submitted
Attachment C (the answer to the request). Our original Service provider then
received a Funding Commitment Report on Jan. 25, 2005, that not only
didn't split the original commitment but ended our contract with them on
Sept. 30 of 2004. Our funding commitment to them was reduced from
16,912.02 to 3,064.99 when it should have been reduced to 13,846.05.

So we then submitted a Form 500 on February 14, 2005 to change the end of
contract date thinking that the logical conclusion is that the SLC would then
extend the 1908.33 per month out to the end of the contract.

In all this confusion all we wanted to do was a Split FRN starting on Oct. 1
2004.
